About You

- You enjoy troubleshooting.
- You have basic math skills and a willingness to advance your skills.
- You're interested in entering the industry quickly and working your way up from an entry-level position in computer systems technology.
- You are interested in developing skills that will allow you to work cross-functionally in a lab environment.
- To learn from your mistakes and build your knowledge base.
- To apply skills including time management and troubleshooting techniques to your work in lab situations.
- To delve into system administration and web development.

Are you ready?

- To complete the majority of your course work in 1st semester on-site in a lab environment.
- To learn from your mistakes and build your knowledge base.
- To apply skills including time management and troubleshooting techniques to your work in lab situations.
- To delve into system administration and web development.

Did you know?

- Troubleshooting is a key learning component of the program and is central to most computer systems based roles.
- To progress through the program (or to switch into Computer Systems Technology T147) you must maintain a 2.7 GPA – that's a B- average.

Preparation Tips

- Attend an Open House at George Brown.
- Register on STU-VIEW for a mandatory in-person English placement test and for your courses.
- Set up your georgebrown.ca email. This is how the college will keep in touch with you.
- Get your student ID card. It gives you access to many college services and activities, including the Library Learning Commons.
- Apply for financial aid and scholarships.

*Extra fees may apply

Other Services

The Current Student page has information about available services and activities including: Athletics (including clubs & recreation), Student Life activities (including the Student Leadership Academy), Counselling, Accessible Learning Services, Library Learning Commons, tutoring, peer coaching, technical support and more.
About Us

- At George Brown we provide practical and experiential learning opportunities designed to prepare you for the realities of globalized business.
- We maintain strong industry connections by aligning our curricula to current and cutting-edge industry practices.
- We provide real-world challenges that require you to find real-world solutions.
- We offer research opportunities, paid on-campus jobs as peer tutors and ongoing industry connections through faculty.

What's Next

Graduates can provide client support and network technical support in a wide variety of industries. Opportunities exist in companies that provide computer support services to other businesses, and in organizations that specialize in the sale and installation of computer systems and networks. Graduates may also find employment working directly with business clients, providing training services and ongoing support to assist them in using computer applications effectively.

The curriculum also prepares students to, after graduating from the program, write several of the examinations leading to industry certification in Network Administration and Support.

Want more training?

Graduates may continue directly into the third year of the Computer Systems Technology program (T147), and earn an Ontario College Advanced Diploma in two additional semesters.

Students who successfully complete this program may qualify for entry into university degree programs. This includes credit towards the Athabasca University BSc-CIS (PD).

For further information on future study options, see georgebrown.ca/transferguide/

Need career support?

Jump-start your job search with Career Services and Career Coach.

The Career Services centre offers support to students before, during and after their studies.

- Identify your strengths and develop your career skills.
- Use our online tools and interactive workshops to build your resume, cover letter and interview skills.
- Work one-on-one with a Career Advisor to start your career development.

Still unsure?

We can help you find the program that’s right for you.

Contact an Entry Advisor at 416-415-5000, ext. 2949 or collegeadvisor@georgebrown.ca.

For inquiries related to T141 contact Program Co-ordinator: Stephen Caneff ext. 6748 or scaneff@georgebrown.ca.
